Elementary World Language Update

Recommendations for 2019-2020: The recommendation is to continue the District's partnership with *Fun Fluency* as an option for our Elementary families to register their child for World Language classes.

The District believes we should stay with our current model because it allows for multiple languages, allows those families who are interested to participate in having world language at the elementary level, and thus, it doesn't decrease minutes in other subject areas.
