Balanced budget; no Deficit Reduction Plan is required.

A deficit reduction plan is required if the local board of education adopts (or amends) the 2023-2024 school district budget in which the "operating funds" listed above result in direct revenues (line 9, BudgetSum 2-4) being less than direct expenditures (line 19, BudgetSum 2-4) by an amount equal to or greater than one-third (1/3) of the ending fund balance (line 81, BudgetSum 2-4).

Note: The balance is determined using only the four funds listed above. That is, if the estimated ending fund balance is less than three times the deficit spending, the district must adopt and file with ISBE a deficit reduction plan to balance the shortfall within three years.

Per School Code (105 ILCS 5/17-1) - If the Deficit AFR Summary Information tab from the 2022-2023 Annual Financial Report (AFR) reflects a deficit as defined above, then the school district shall adopt and submit a deficit reduction plan (found here on page 23-27) to ISBE within 30 days after acceptance of the AFR.

The deficit reduction plan, if required, is developed using ISBE guidelines and format.

Part I: Achieving Student Growth and Making Progress Toward State Education Goals

The questions below allow you to indicate the strategic priorities and strategies that will drive your efforts to achieve student growth and make progress toward state education goals. These may involve investing in any combination of an Organizational Unit's core resources: time, money, people, and programs.

Collaboration Opportunity - Organizational Units may find that Part I is most easily and effectively completed if led by program leaders in consultation with finance leaders.

1) What are the Organizational Unit's strategic goals for student success for the 2023-24 school year? What measures will be used to evaluate progress? No more than 2000 characters, including spaces.)

The district prides itself in maintaining low class sizes as a contributor to student success. We've added additional social work services to provide social/emotional support to students. We look at student achievement data over time that had been disaggregated by student groups from MAP and classroom assessments in math and reading. We continue to see growing numbers of students qualifying for special education services or needing additional support in math and SEL in addition to general classroom instruction. The interventionist serves in a supplemental role providing services and special education resource teachers provide additional services to students.

Part II: Planned Use of Evidence-Based Funding

The questions below provide an opportunity to document the stakeholders with whom you consulted and the data you analyzed as you determined your strategic allocations of FY 2024 EBF dollars. Key statistics related to EBF distributions are provided for your reference. Form 50-36/50-39 is typically released before current-year appropriations are known. Therefore, the figures provided are for the prior fiscal year.

Collaboration Opportunity - Organizational Units may find that questions in this section are most easily and effectively completed if led by finance leaders in consultation with program leaders.
