

Assessment and Illinois Report Card

November 12, 2024

Dr. Becky FitzPatrick Mrs. Amanda Czerniuk Dr. Brian Kaye

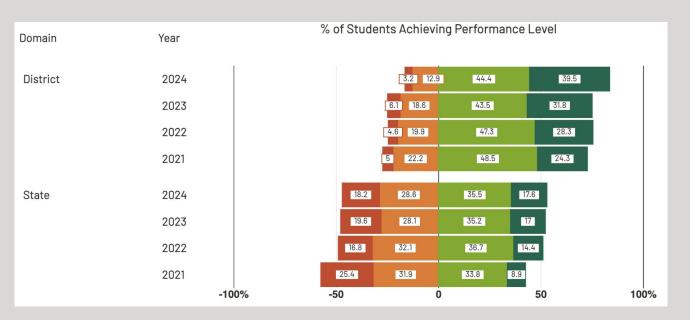

- 1. Illinois Science Assessment (ISA)
- 2. Illinois Assessment of Readiness (IAR)
- 3. Spring NWEA MAP
- 4. Illinois Report Card

Illinois Science Assessment (ISA)

ISA Percent Meeting/Exceeding | District and State

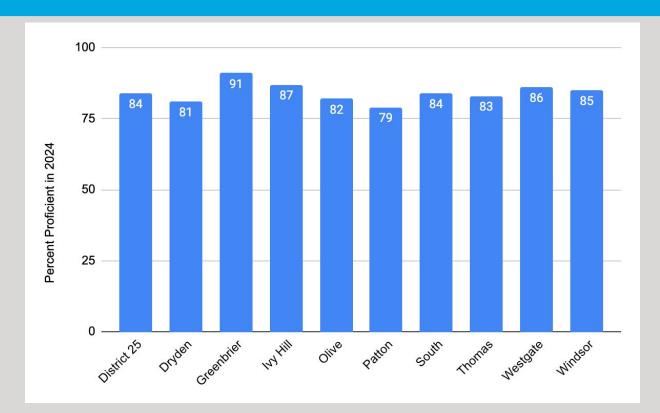

D25 proficiency in science continues to outperform the state. Proficiency is the percent of students who meet the achievement benchmark set by the State of Illinois.

Overall science proficiency increased nine percentage points over last year.

ISA Percent Meeting/Exceeding by School

All D25 schools demonstrated greater than 75% overall proficiency in science last spring.

Middle school science teachers are in the action planning year of the program review process in which they develop belief statements, review data, and evaluate resources.

ISA D214 Sender Districts' Overall Proficiency

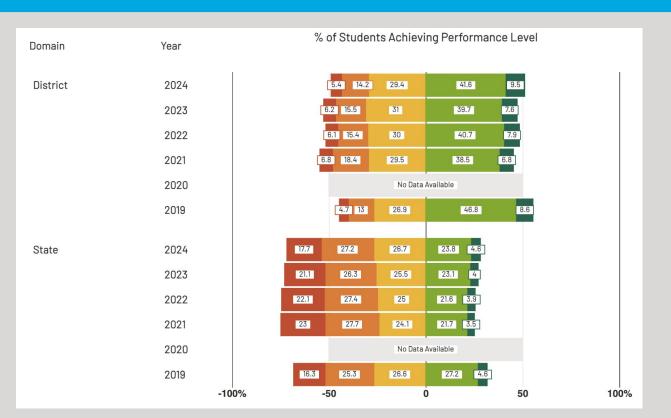

D25 continues to outperform D214 sender districts on the ISA.

Illinois Assessment of Readiness (IAR) Math

IAR Math Percent Meeting/Exceeding | District and State

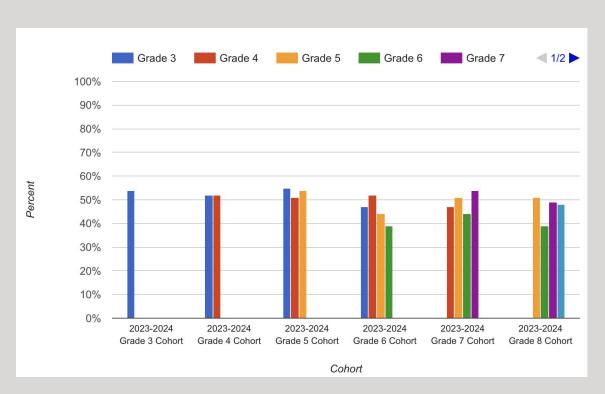

D25 proficiency in math continues to outperform the state.

Math proficiency increased by four percentage points over last year.

IAR Math Percent Meeting/Exceeding by Cohort

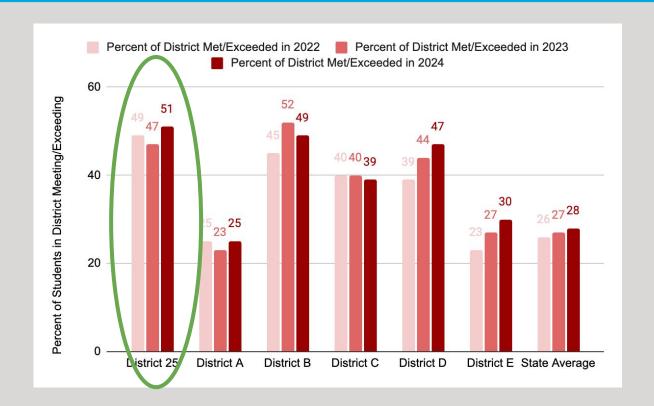

Cohort performance over time continues to be inconsistent in math.

Our 6th graders shift from 60 instructional minutes of math in 5th grade to 40 minutes in 6th grade. The current 6th grade math curriculum provides less visual representations and conceptual instruction than the 5th grade resource.

Our middle school math teachers are in the action planning phase of the program review process in which they will pilot new curricula this winter.

IAR Math D214 Sender Districts

D25 continues to outperform the state and all of the other D214 sender districts in math.

How to Interpret Growth

Higher than Expected Growth

Growth is +0.30 or above

Expected Growth

Growth from -0.29 to +0.29

Lower than Expected Growth

Growth from -0.30 to -0.59

Unsatisfactory Growth

Illinois Assessment of Readiness (IAR) English Language Arts

IAR ELA Percent Meeting/Exceeding | District and State

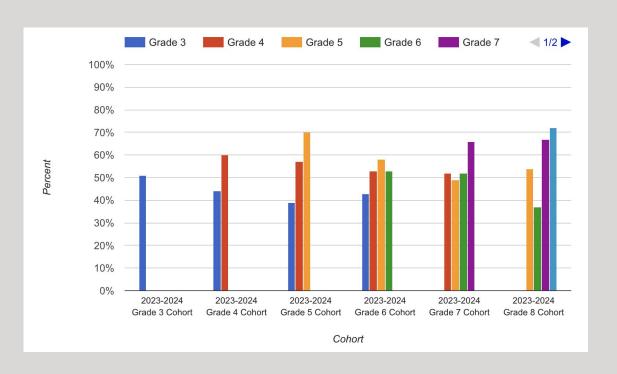

D25 proficiency in ELA continues to outperform the state.

ELA proficiency increased by seven percentage points over last year.

IAR ELA Percent Meeting/Exceeding by Cohort

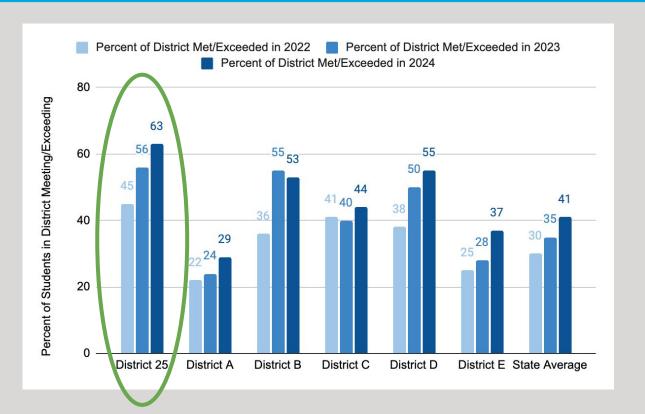

Overall, ELA proficiency by cohort grew over the year prior except for our 6th graders.

Last spring's 4th graders' written expression proficiency grew from approximately 32% in 3rd grade to approximately 68% in 4th grade.

IAR ELA D214 Sender Districts

D25 continues to outperform the state and all other D214 sender districts in ELA.

IAR ELA Growth by School

In reading, all student groups grew as expected.

Elementary teachers are engaging in a book study and professional learning using the foundational text *Teaching Reading Across the Day* to implement research-based reading structures for all readers.

Expected Growth

Growth from -0.29 to +0.29

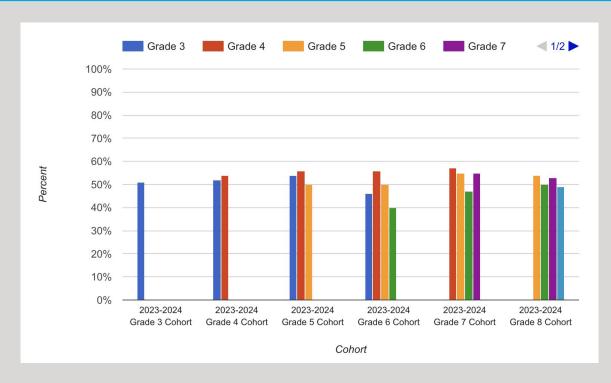

Unsatisfactory Growth

MAP Reading Percent Meeting/Exceeding by Cohort

Cohort performance over time has been inconsistent in reading.

The new elementary literacy curriculum *Into Reading* will spiral foundational skills and concepts throughout the school years and offer a richer variety of texts to support reading comprehension.

Summary

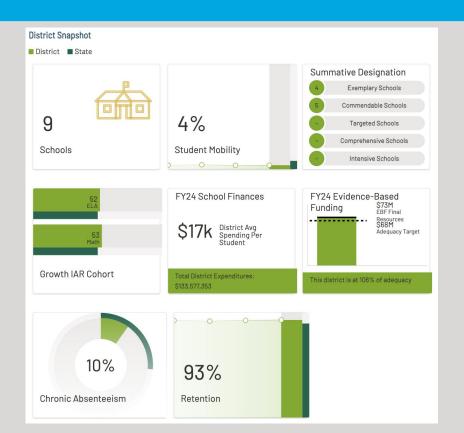

- District 25's overall proficiency in science, math, and ELA increased over the last school year and exceeds those of the state and neighboring districts.
- District 25 students are growing as expected or achieving higher than expected growth.
- Proficiency gaps exist between student groups. However, proficiency gaps for our ML Learners narrowed this year. To close gaps, lower-performing groups, like students with IEPs, must grow at higher rates.
- The Department of Student Learning continues to analyze student assessment data internally, with building leaders, and together with program review committees to identify areas for celebration and growth.
- District 25 buildings continue to use MAP assessment data to determine which students need intervention and enrichment within and outside of the classroom.
