

INSTRUCTION

6:130 Program for the Gifted

The Superintendent or designee shall implement an education program for gifted and talented learners, as well as those students who demonstrate high ability and who may benefit from accelerated placement, that is responsive to student needs and is within the budget parameters as set by the Board. This program shall include an identification system which identifies advanced learners and is based upon multiple techniques. If the State Superintendent of Education issues a Request for Proposals because sufficient State funding is available to support local programs of gifted education, the Superintendent or designee shall inform the Board concerning the feasibility and advisability of developing a "plan for gifted education" that would qualify for State funding.

Eligibility to participate in the advanced program shall not be conditioned upon race, religion, sex, disability, or any factor other than the student's identification as gifted or talented.

The Board will monitor this program's performance by meeting periodically with the Superintendent or designee to determine and/or review the indicators and data that evidence whether the educational program for advanced learners is accomplishing its goals and objectives and is otherwise in compliance with this policy.
